

Strategic Objective H - Improved food security and better nutrition		
OR H5: Member countries and other stakeholders have better access to FAO analysis and information products and services.		
Unit Result 6 - E-Learning, learning resources, learning events, needs assessments and advice for improved information management and knowledge exchange in member countries.		Indicators (baseline for biennium)
P	Comprehensive plans for the development of learning materials based on consultations with information management and knowledge exchange experts, end-user representatives and other stakeholders.	<ul style="list-style-type: none"> • Number of designed and approved plans for learning materials (2) • Number of ongoing and new modules under guidance of IMARK SG, number of organizations participating in IMARK SG (4). • Funding levels in \$ (250K), organizations contributing expertise and materials (15). • Number of white papers prepared (2). • Number of workshops (2), number of expert attendees, number of end-user attendees.
A	IMARK Steering Group (SG) annual meeting to evaluate the potential for new modules related information management and knowledge exchange.	
A	Advocacy, awareness building and fundraising for the development of new modules.	
A	IMARK module design “white papers” developed by subject expert for new modules.	
A	Technical consultations organized with a wide range of IKM stakeholders to review white papers for new IMARK modules.	
A	Detailed module outlines prepared by subject experts and instructional designers.	
P	E-Learning modules and related materials to support information management and knowledge exchange delivered as part of the Information Management Resource Kit (IMARK).	<ul style="list-style-type: none"> • Number of IMARK modules published in FAO languages (4), number of CD and Internet users (25000), level of usage (30%). • Number of experts and institutions involved in the development of modules (8). • Language coverage statistics and use, geographic distribution of users. • Uptake of materials by external institutions and universities to support IKM activities and programmes. • Reference to materials, citations, conferences. • User and partner satisfaction, user testimonials.
A	Subject experts commissioned for the creation of learning materials	
A	Instructional design of learning materials.	
A	Peer review of learning materials	
A	Adaptation of learning materials to FAO official languages	
A	Learning materials prepared for delivery on CD, the Internet and to external learning systems.	
A	Promotion and dissemination of learning materials through appropriate and effective channels.	
A	Periodic evaluation of learning materials undertaken with end-users and other stakeholders.	
S	Online and blended events and workshops to develop stakeholder skills in information management and knowledge exchange.	<ul style="list-style-type: none"> • Number of workshops delivered, number of workshop attendees (100), attendee satisfaction levels. • Number of workshops delivered by partner institutions using IMARK
A	Workshops designed based on existing learning materials	
A	Workshops delivered by subject experts and	

	facilitator	materials (10).
A	Workshop evaluation undertaken	

Strategic Objective H - Improved food security and better nutrition		
OR H5: Member countries and other stakeholders have better access to FAO analysis and information products and services.		
Unit Result 19 - E-learning and training resources, and virtual workshops and courses on food security and agriculture for use in member countries.		Indicators (baseline for biennium)
S	Advice and guidance provided to FAO technical units, partner organizations and institutions in Member States on the development and deployment of e-learning programmes.	<ul style="list-style-type: none"> • Number of needs assessments undertaken (4) • Proposals and/or operation plans developed (4), funding levels in \$ (1Mil) • OEKC developed e-learning courses made available to FAO staff (6), OEKC e-learning course made available to staff and affiliates of partner organizations (6), e-learning course made available to universities and vocational training centers (6)
A	Undertake needs assessments with FAO technical units and external partners considering e-learning solutions	
A	Advise FAO technical units and external partners of technical and resources requirements for developing e-learning materials and related training resources.	
A	Support to proposal development, awareness building and fundraising for the development of new courses.	
A	Advise FAO technical units and external partners on technical platforms and solutions suited for use in Member States, including low-cost / low-bandwidth options.	
A	Provide support, technical advice and available OEKC e-learning materials to HR for use by FAO staff and to HR services in partner organizations	
A	Provide technical advice and available OEKC e-learning materials to universities and training centers offering food security and agriculture related courses of study.	
P	Comprehensive plans prepared in consultation with FAO technical units for the development of e-learning materials and associated training resources on food security and agriculture.	
A	Project planning exercises undertaken with FAO technical units for the delivery of e-learning curricula related to food security and agriculture.	<ul style="list-style-type: none"> • Number of designed and approved plans for learning materials (2) • Number of ongoing and new modules under guidance of OEKC, number of technical units working with OEKC (4). • External organizations contributing expertise and materials (20). • Number of white papers prepared (2). • Number of technical consultations (2), number of expert attendees,
A	Curriculum design "white papers" prepared by subject experts in consultation with FAO technical units with guidance from OEKC.	
A	Co-organization with FAO technical units of technical consultations bringing together a wide range of stakeholders to review white papers.	

	A	Detailed curriculum outlines prepared by subject experts and OEKC instructional designers with guidance and support from FAO technical units.	number of end-user attendees.
P	E-Learning courses and related training materials related to food security and agriculture.		<ul style="list-style-type: none"> • Number of e-learning courses published in FAO languages (6), number of CD and Internet users (20000), level of usage (30%). • Number of experts and institutions involved in the development of modules (12). • Language coverage statistics and use, geographic distribution of users. • Uptake of materials by external institutions and universities offering courses of study related to food security and agriculture. • Reference to materials, citations, conferences. • User and partner satisfaction, user testimonials.
	A	Subject experts commissioned for the creation of e-learning materials.	
	A	Instructional design of e-learning materials.	
	A	Peer review of e-learning materials.	
	A	Adaptation of e-learning materials to FAO official languages.	
	A	E-learning materials prepared for delivery on CD, the Internet and to external learning systems.	
	A	Support FAO technical units in the promotion and dissemination of e-learning materials through appropriate and effective channels.	
	A	Periodic evaluation of learning materials undertaken with end-users and other stakeholders.	
S	Online and blended events and workshops related to food security and agriculture.		<ul style="list-style-type: none"> • Number of workshops delivered, number of workshop attendees (100), attendee satisfaction levels. • Number of workshops delivered by partner institutions using FAO materials (10).
	A	Workshops designed based on existing learning materials	
	A	Workshops delivered by subject experts and facilitator	
	A	Workshop evaluation undertaken
